

## **Use of “off label” medicines during the lifetime care of an animal at this practice**

Under UK legislation, where there are no suitable drugs specifically authorised for the treatment of camelids, a medicinal product authorised to be used for the same or similar condition in another species may be used, with your consent.

Owner’s details (must be over the age of 18):

Name:

Address:

Post code:

Telephone number:

Patient details:

Ear Tag:

I understand that certain drugs not licensed for use in this species, but having acknowledged efficacy, may be used to treat my animal(s). The possible side effects and precautions relating to the specific drugs have been/will be discussed with me so that I understand the reasons for their use. I am also aware that there may be unknown side effects associated with the use of these drugs in this species, and in accepting their use for the treatment of my animal(s) I accept any attendant risk.
